

K-love radio is so crucial to my daily life. The risk of losing K-love is frightening to me. It would be such a loss to me, and many others in my community if that came to fruition. K-love offers a real choice in what me and my family listen to on the radio. We voted for the current administration which put Mr. Powell in his position. We expect K-love to be supported by this administration, or at least let alone. Anything to the contrary would be nothing less than hypocritical.
